WIOA eligible
WIOA is a voluntary work program. Participants must be able to work upon completion of the program.
Phlebotomy Technician

This accelerated course prepares students for entry level competencies as phlebotomists in hospitals, clinics, blood banks, and other healthcare settings. Our graduates will be trained to collect, transport, handle, and process blood and other specimens for laboratory analysis using venipuncture and micro collection techniques.

In addition, our students will be able to identify and select equipment, supplies, and additives used in blood collection. Students will also understand factors that affect specimen collection procedures and test results.

Course Components

This course is comprised of 80 hours Lecture, 15 hours Lab, 40/100 hours Clinical based on clinical hours rotation.

Please Note:

- Students will develop skills in performing phlebotomy procedures during on-campus training followed by off-site clinical.
- Successful completion of all three course components are required to graduate.
- Lab dates and hours, and clinical locations will be given in the beginning of class to ensure ample time to inform employers of this training. Time off from work may be required.

Certification

This course prepares you to take the national certification exam issued by the National Center for Competency Testing (NCCT) and/or the American Society for Clinical Pathology (ASCP).
